201 S Broadway Ave  
PO BOX 209  
Albert Lea, MN 56007

---

## POSITION

Front-End Developer Intern

## REPORTS TO

Data Scientist

## ROLE DESCRIPTION

Mortarr is looking for a Front-End Developer Intern focused in the website maintenance space.

## IDEAL CANDIDATE PROFILE

You have demonstrated technology and coding skills with the ability to identify where small changes will have big results. You have an eye for quality, design and detail as demonstrated by your own projects or client examples. You are curious about user experience and eager to learn and enhance by doing and by testing.

## RESPONSIBILITIES

- Swap out images on homepage and elsewhere on site
- Update CSS and make other style edits
- Write and implement QA test cases and/or scripts for offshore development work to ensure it meets acceptance criteria
- Recommend prioritization of backlog of design bugs
- Maintain Google Tag Manager tag library

## DESIRED SKILLS & EXPERIENCE

- Willingness to take the reins and figure it out
- Ability to read and apply design requirements
- Time management and prioritization
- Excellent attention to details
- Basic HTML or PHP proficiency
- Google Analytics or other website analytics tools
- Capacity to find ways to solve challenges creatively
- Understanding of test design and iterative development process 2
- Interested in exploring new technology and media capabilities

## ROLE DETAILS

- Up to 20 hours/week (depending on your availability)

- Noon to 5pm work hours
- Fully Remote

## **BOTTOM LINE**

You're a rising talent that's mastered the fundamentals of front-end development.

## **CORE VALUES**

**Make it Happen:** A great idea is nothing if it never sees the light of day. We can't just think it, or talk about it; we have to do it. No matter what stands in our way, we must find a way to get it done.

**Pursue the Uncommon:** Being average is not an option. To transform an entire industry, we have to be different. We must explore blue oceans, uncharted territory, pave ways not yet discovered. We must think big and do bigger.

**Sweat the Details:** Stick! Stick! Stick! Beauty isn't in the details. It is the details. Always be mindful of the importance of everything we do because a collection of little things makes big things happen.

**Ride the Tide:** Dodge, dip, dive, and dodge. It's best to avoid wrenches, but when they do come our way, we always make the best of the situation.

**Mad Respect:** No jerks allowed.

## **NEXT STEPS**
